Exhibit Guide 2009

Welcome to ITEE Innovation Expo 2009

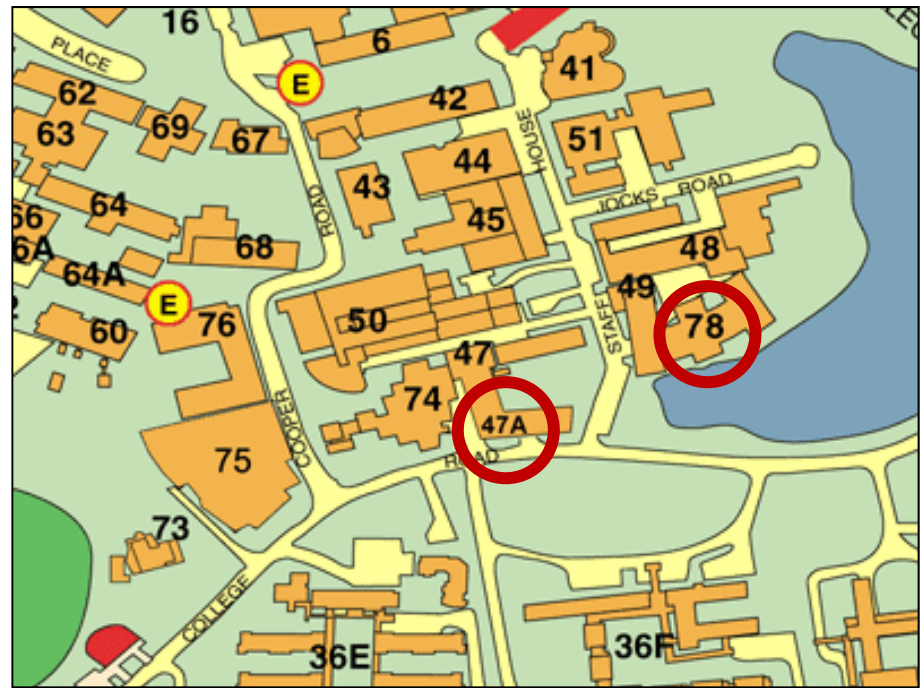

Examine some of UQ's most innovative ideas and research projects from our final year Information Technology, Electrical Engineering and Multimedia Design students – all in one afternoon.

While you're here, you can discover projects which range from unmanned aerial vehicles to vision tests based on brainwaves!

Please refer to the St Lucia campus map to assist you with your journey around the ITEE precinct. Just follow the signs when you arrive at each building.

Our students have been working on these projects for many months and are more than happy to answer any questions you may have. You are welcome to test their knowledge and challenge them!

Thank you for taking the time to experience the ITEE Innovation Expo 2009. For more information visit innovexpo.itee.uq.edu.au/2009/
